<p>DATE OF ISSUE</p> <p>01.09.2023</p> <p>Valid 1 year renewable</p>	<p>HOLDER</p> <p>Werner & Mertz Benelux</p> <p>Avenue Jean Monnet 1/6 1401 Nivelles Baulers - Belgique</p>	<p>BY AIR LABEL SCORE</p> 
---	---	---

Air Label Score gives each product tested a score from A+ (very low emissions) to C (high emissions) representing the emissions of the product.

The tests were carried out in emission chamber by an **accredited laboratory** and are carried out on the basis of the protocols established by the NF EN ISO 16000-3, 16000-6, 16000-9 and 16000-11 adapted standards.

All the Volatile Organic Compounds emitted by the product are identified and quantified. They are then compared with the emission limit values from more than 125 international organisations.

To obtain an A+ rating for professional use, each Volatile Organic Compound must **comply with the strictest emission value** from these bodies. Scores and limit values are updated annually.
