

# CALC off

Highly efficient descaler for professional cleaning

## Sustainability Information

### Sustainable Contribution

- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration
- CALC off with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard

### Quality & Performance

- More than 30 years of experience in the development of high-performance and integrally sustainable cleaning concepts.
- Our Green Care Professional products are produced exclusively in the EMAS-certified plants in Mainz and Hallein in compliance with the highest quality standards

### Safe for humans & environment

- Our formulas and packaging are safe for humans and nature as well as biological and technical cycles when used properly
- CALC off is formulated from readily biodegradable raw materials

### Circular cleaning products

- Production with intensive use of renewable raw materials and energy up to 100% from hydropower, solar and geothermal power
- To find out how much plastic, CO<sup>2</sup> and crude oil can be saved with Green Care Professional products, visit: [get.wmprof.com](http://get.wmprof.com)

### Sustainable profitability

- Our intelligent systems and efficient formulas enable precise and economical dosing as well as complete emptying of the packaging
- Comprehensive and consistently practiced philosophy of sustainable management

### Comprehensive Service

- As a strategic partner, we offer comprehensive know-how transfer through holistic consulting and support as part of our Green Care Academy
- Customized hygiene plans and cleaning recommendations optimizing your cleaning procedures and thus your business

## Company certificates of Management Systems

**EMAS:** Most demanding system for sustainable environmental

**DIN ISO 14001:** Internationally recognized environmental management system

**DIN ISO 50001:** Internationally recognized energy management system

**DIN ISO 9001:** Internationally recognized quality management system

**EcoVadis:** Provider of business sustainability ratings

# CALC off

## Highly efficient descaler for professional cleaning

With corrosion protection formula | Free from surfactants | Polyvalent

### Product profile

- CALC off is an effective descaler for fast and reliable removal of limescale deposits and for professional cleaning.
- With corrosion protection formula for value-preserving descaling, particularly suitable for (heating) elements made of copper or stainless steel.
- Can be used on copper with up to a 10% solution; observe the device manufacturer's specifications.
- Suitable for all acid-resistant surfaces and floors, fittings as well as kitchen appliances and utensils, coffee machines, beverage dispensers, dishwashers and washing machines.
- Free from surfactants and therefore particularly suitable for microporous surfaces such as porcelain stoneware.
- Free from fragrances and colorants.

### Area of application

- See illustrations for dosage. Use in concentrated form for stubborn encrustations. The application time depends on the application concentration, the application temperature and the amount of limescale.
- Descale appliances with a diluted 2-10% solution. Allow sufficient application time and rinse with clean water.
- Suitable for acid-resistant dishwashers and washing machines. The components can be sprayed with a 2-10% solution (switch off the cleaning supply). After allowing sufficient contact time, drain and rinse with clean water.
- Regular use prevents further limescale deposits.
- After descaling drain off and rinse all contact surfaces with clear water.

### Ingredients, handling, storage and environmental instructions

For the ingredients list, please see the Safety Data Sheet. Product strictly reserve for a professional use. For all information regarding handling, storage conditions and disposal, please see the Safety Data Sheet.

### Sales units:

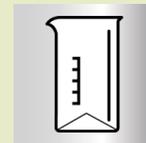

717259 - 10 x 1 l

pH value

### Application and Dosing

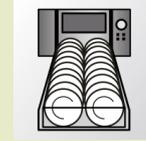

Dose in relation to application and degree of soil. Follow below instructions.

#### Scale prevention

Prevents scaling of the heating elements.

20-100 ml/l

Suitable for all types of dishwashing machines.

20-100 ml/l

Maximum dosage for use in coffee machines 10%.

20-150 ml/l

Maximum dosage for use in washing machines 15%.

from 2,5 ml/l

#### Surface cleaning

Apply to the surface, clean mechanically and rinse with clean water.
