

CALC off

Highly efficient descaler for professional cleaning

Sustainability Information

Sustainable Contribution

- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration
- CALC off with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard

Quality & Performance

- More than 30 years of experience in the development of high-performance and integrally sustainable cleaning concepts.
- Our Green Care Professional products are produced exclusively in the EMAS-certified plants in Mainz and Hallein in compliance with the highest quality standards

Safe for humans & environment

- Our formulas and packaging are safe for humans and nature as well as biological and technical cycles when used properly
- CALC off is formulated from readily biodegradable raw materials

Circular cleaning products

- Production with intensive use of renewable raw materials and energy up to 100% from hydropower, solar and geothermal power
- To find out how much plastic, CO² and crude oil can be saved with Green Care Professional products, visit: get.wmprof.com

Sustainable profitability

- Our intelligent systems and efficient formulas enable precise and economical dosing as well as complete emptying of the packaging
- Comprehensive and consistently practiced philosophy of sustainable management

Comprehensive Service

- As a strategic partner, we offer comprehensive know-how transfer through holistic consulting and support as part of our Green Care Academy
- Customized hygiene plans and cleaning recommendations optimizing your cleaning procedures and thus your business

Company certificates of Management Systems

EMAS: Most demanding system for sustainable environmental

DIN ISO 14001: Internationally recognized environmental management system

DIN ISO 50001: Internationally recognized energy management system

DIN ISO 9001: Internationally recognized quality management system

EcoVadis: Provider of business sustainability ratings

CALC off

Highly efficient descaler for professional cleaning

With corrosion protection formula | Free from surfactants | Polyvalent

Product profile

- CALC off is an effective descaler for fast and reliable removal of limescale deposits and for professional cleaning.
- With corrosion protection formula for value-preserving descaling, particularly suitable for (heating) elements made of copper or stainless steel.
- Can be used on copper with up to a 10% solution; observe the device manufacturer's specifications.
- Suitable for all acid-resistant surfaces and floors, fittings as well as kitchen appliances and utensils, coffee machines, beverage dispensers, dishwashers and washing machines.
- Free from surfactants and therefore particularly suitable for microporous surfaces such as porcelain stoneware.
- Free from fragrances and colorants.

Area of application

- See illustrations for dosage. Use in concentrated form for stubborn encrustations. The application time depends on the application concentration, the application temperature and the amount of limescale.
- Descale appliances with a diluted 2-10% solution. Allow sufficient application time and rinse with clean water.
- Suitable for acid-resistant dishwashers and washing machines. The components can be sprayed with a 2-10% solution (switch off the cleaning supply). After allowing sufficient contact time, drain and rinse with clean water.
- Regular use prevents further limescale deposits.
- After descaling drain off and rinse all contact surfaces with clear water.

Ingredients, handling, storage and environmental instructions

For the ingredients list, please see the Safety Data Sheet. Product strictly reserve for a professional use. For all information regarding handling, storage conditions and disposal, please see the Safety Data Sheet.

Sales units:

717259 - 10 x 1 l

pH value

Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

Scale prevention

Prevents scaling of the heating elements.

20-100 ml/l

Suitable for all types of dishwashing machines.

20-100 ml/l

Maximum dosage for use in coffee machines 10%.

20-150 ml/l

Maximum dosage for use in washing machines 15%.

from 2,5 ml/l

Surface cleaning

Apply to the surface, clean mechanically and rinse with clean water.
