

# ENERGY turbo

High alkaline detergent for professional dishwashers

## Sustainability Information

### Sustainable Contribution

- Certified with the European Ecolabel (AT/038/005)
- Developed to fulfill the Austrian Ecolabel
- Registered in the positive list of 'DIE UMWELTBERATUNG'
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration
- With surfactants of renewable plant-based origin
- ENERGY turbo with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard

### Quality & Performance

- More than 30 years of experience in the development of high-performance and integrally sustainable cleaning concepts.
- Our Green Care Professional products are produced exclusively in the EMAS-certified plants in Mainz and Hallein in compliance with the highest quality standards

### Safe for humans & environment

- Our formulas and packaging are safe for humans and nature as well as biological and technical cycles when used properly
- ENERGY turbo is formulated from readily biodegradable raw materials

### Circular cleaning products

- Production with intensive use of renewable raw materials and energy up to 100% from hydropower, solar and geothermal power
- To find out how much plastic, CO<sup>2</sup> and crude oil can be saved with Green Care Professional products, visit: [get.wmprof.com](http://get.wmprof.com)

### Sustainable profitability

- Our intelligent systems and efficient formulas enable precise and economical dosing as well as complete emptying of the packaging
- Comprehensive and consistently practiced philosophy of sustainable management

### Comprehensive Service

- As a strategic partner, we offer comprehensive know-how transfer through holistic consulting and support as part of our Green Care Academy
- Customized hygiene plans and cleaning recommendations optimizing your cleaning procedures and thus your business

### Product certificates

### Company certificates of Management Systems

**EMAS:** Most demanding system for sustainable environmental

**DIN ISO 14001:** Internationally recognized environmental management system

**DIN ISO 50001:** Internationally recognized energy management system

**DIN ISO 9001:** Internationally recognized quality management system

**EcoVadis:** Provider of business sustainability ratings

# ENERGY turbo

## High alkaline detergent for professional dishwashers

3-in-1 | Highly concentrated | Outstanding result

### Product profile

- ENERGY turbo is a concentrated, innovative and high performing formulation without EDTA, NTA or phosphate complying with highest environmental standards.
- ENERGY turbo removes even very persistent food residues and is versatile for excellent and uniform results.
- ENERGY turbo is efficient and works quickly, therefore it allows to save costs and time.
- ENERGY turbo enables a quick reuse of dishes, increases work efficiency and is a universal product for easier working processes.

### Area of application

- ENERGY turbo can be used as machine-dish-cleaner in all tank and multi-tank machines or as cleaning intensifier.
- Ideal for use in soft and middle hard water.
- ENERGY turbo use for pre-soaking: Carefully place dishes in lukewarm water, so that everything is completely covered. Max. heat 40°C. Depending on degree of soiling leave to soak for 10-20 minutes. After removing dishes from pre-cleaning or soaking solution go on with cleaning in the usual way.

### Ingredients, handling, storage and environmental instructions
