ENERGY uni

Detergent for professional dishwashers in medium-hard water conditions

Ecolabel certified | For medium-hard water | Concentrated

Product profile

- ENERGY uni is a powerful detergent for dishwashers with excellent cleaning performance, specially in soft and medium-hard water conditions, while respecting highest sustainability standards due to an innovative complexing system without NTA, EDTA and Phosphates.
- Due to its concentrated cleaning agents ENERGY uni is suitable for dishes, glasses, cutlery and cookware.
- In order to preserve dishes and machines, ENERGY uni enables a gentle washing process and extends machines life span due to its special lime deposits preventing formula.
- Excellent cleaning results when used in combination with BRILLANT uni.
- Majorly composed of renewable resources, ENERGY uni takes on the responsibility for future generations.

Area of application

- For all types of dishwashing machines e.g., conveyor and single-tank dishwashers.
- Suitable for alkali-resistant dishes and cutlery.
- Do not use for dishes and cutlery made of aluminum and silver.
- Dosing according to water conditions: soft water conditions: 1 - 2 g/L | medium hard water conditions: 2 - 3 g/L

Ingredients, handling, storage and environmental instructions
