

LONGLIFE matt

High-performance matt floor polish

Sustainability Information

Sustainable Contribution

- Developed to fulfill the Austrian Ecolabel
- Registered in the positive list of 'DIE UMWELTBERATUNG'
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration
- With surfactants of renewable plant-based origin
- LONGLIFE matt with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard

Quality & Performance

- More than 30 years of experience in the development of high-performance and integrally sustainable cleaning concepts.
- Our Green Care Professional products are produced exclusively in the EMAS-certified plants in Mainz and Hallein in compliance with the highest quality standards

Safe for humans & environment

- Our formulas and packaging are safe for humans and nature as well as biological and technical cycles when used properly
- LONGLIFE matt is formulated from readily biodegradable raw materials

Circular cleaning products

- Production with intensive use of renewable raw materials and energy up to 100% from hydropower, solar and geothermal power
- To find out how much plastic, CO² and crude oil can be saved with Green Care Professional products, visit: get.wmprof.com

Sustainable profitability

- Our intelligent systems and efficient formulas enable precise and economical dosing as well as complete emptying of the packaging
- Comprehensive and consistently practiced philosophy of sustainable management

Comprehensive Service

- As a strategic partner, we offer comprehensive know-how transfer through holistic consulting and support as part of our Green Care Academy
- Customized hygiene plans and cleaning recommendations optimizing your cleaning procedures and thus your business

Product certificates

Company certificates of Management Systems

EMAS: Most demanding system for sustainable environmental

DIN ISO 14001: Internationally recognized environmental management system

DIN ISO 50001: Internationally recognized energy management system

DIN ISO 9001: Internationally recognized quality management system

EcoVadis: Provider of business sustainability ratings

LONGLIFE matt

High-performance matt floor polish

Resistant | Matt appearance | High-quality care protection

Product profile

- LONGLIFE matt is a high-performance dispersion providing excellent results.
- LONGLIFE matt is also a high-quality care protection for real-wood floorings which produce resistant protection layer in order to extend the surface lifespan.
- LONGLIFE matt ensures outstanding durability, and resistance thanks to special developed technology.
- The use of special polymers prevents clouding of protective film after maintenance cleaning.
- The product preserves the surface and it delays a renovation with elaborate grinding work.
- Thanks to a very good alcohol, and disinfectant resistance as well as slip-resistance (certified in accordance with DIN 18032-2), LONGLIFE matt is particularly suitable for use in health facilities, and wherever a matt appearance is required.
- Protective film provided by LONGLIFE matt ensures outstanding resistance while having highly elastic properties, and extraordinary adherence on all flooring types.
- Owing its special characteristics LONGLIFE matt can also be applied on residual damp linoleum floors. A renewal of protective film is possible without significant increase of gloss level.
- This product works ideally in a system with LINAX complete, which easily removes LONGLIFE matt polymer films.
- By the complete abandonment of hazardous ingredients such as zinc, TBEP, perfume, and fluorinated levelling agents, LONGLIFE matt takes on the responsibility for future generations.

Area of application

- LONGLIFE matt is suitable for universal use on all coatable flooring especially elastic flooring made of PVC, linoleum, natural rubber and other special synthetic materials.
- It can be even used on oiled and lacquered wood, such as oak, beech, spruce as well as for massive and finished parquet.
- Specially recommended for highly frequented areas, e.g. hospitals, nursing home, medical practice etc., where semi matt coatings with high durability and high slip resistance are required.
- Not to be used on polished stone floors, stoneware tiles, as well as on unsealed wood.
- It can be also used for floorings which have been primed with TIMBER natura.

Ingredients, handling, storage and environmental instructions

For the ingredients list, please see the Safety Data Sheet. Product strictly reserve for a professional use. For all information regarding handling, storage conditions and disposal, please see the Safety Data Sheet.

Sales units:

1214289 - 2 x 5 l

pH value

Application and Dosing

Dose in relation to application. Follow below instructions.

Shake before use.

Floor preparation

Strip the floor, remove all dirt and old dispersion layers.

concentrated

Initial treatment

Apply 2-3 thin and uniform layers. Drying time between the applications at least 30min.

Large areas

Work in sections and apply wet in wet. Usage: approx. 2l / 100 m².

200 ml/l

Coating refreshment

Remove slight scratches using the spray-cleaner-method and a highspeed machine with red pad.

Spray on the floor and treat with a single disk machine and a standard blue pad.
