

# NOWA ISR 700

## Chlorine based disinfectant foaming cleaner

Outstanding performance | Thorough cleaning | Disinfecting

### Technical Information

#### Product profile

- NOWA ISR 700 is a chlorine based disinfecting foaming cleaner with bactericidal and yeasticidal activity according to EN 1276, EN 1650, and EN 13697.
- Owing to its high surfactant content combined with natron soda lye, NOWA ISR 700 is one of the strongest cleaning products available.
- NOWA ISR 700 has a powerful disinfectant action

#### Area of application

- For cleaning all kinds of surfaces that are largely tolerant towards alkalis in food-processing premises, e.g. abattoirs, bakeries, food-smoking/curing operations, canteens, etc.
- Can be used on tiles, floors, doors, conveyor belts and trolleys, workbenches, chopping blocks and boards, etc. Excellent for use with high and low-pressure equipment.
- Caution: attacks aluminium, brass and copper.
- Allow solution to work according to exposure times. For detailed information see next page: Standards; Spectrum of activity.
- Rinse with clear water when used on surfaces with food contact.

\*BPR: The Biocidal Products Regulation is valid from 2013. This regulation aims to improve the functioning of biocidal products market in the EU. For further information, please contact: [info.professional@werner-mertz.com](mailto:info.professional@werner-mertz.com)

#### Product variants

**1113323** - 1 x 20 l

**1113325** - 1 x 200 l

pH value

#### Application and Dosing

Dose in relation to application. Follow below instructions.

**Foam application:**  
Can be used in foam machines.
