

LOGLIFE sport

Emulsion polish for sport floorings

Slip resistance | Highly elastic | Easy application

Technical Information

Product profile

- LONGLIFE sport is a specific emulsion polish designed to meet the special needs of modern sport hall floorings.
- The highly elastic protective film of LONGLIFE sport shows no sign of brittleness at any time during its use and even retains its whole flexibility during heavy use.
- LONGLIFE sport is tested and approved in accordance with DIN 18032-2.
- LONGLIFE sport protects floorings against high mechanical strains and early erosions.
- The silky protection film of LONGLIFE sport can be polished and additionally enables a quick and simple spot renovation. This is important when the sport hall is working to full capacity or is used as a multi-purpose-hall.
- Occasional polishing (400 UPM) enhances the look and compacts the applied protection film which extends the durability of the surface.
- LONGLIFE sport is easy and fast in application, shows an excellent flow and steady look after drying.

Area of application

- LONGLIFE sport is excellent for the application in all sport floors made of PVC, linoleum, rubber, sealed parquet, etc. Do not use on unsealed wood.

Ingredients, handling, storage and environmental instructions
