

NOWA clean

Industrial cleaner for metal processing industry

Industrial degreaser | Low COD | Manual/mechanical cleaning

Technical Information

Product profile

- NOWA clean penetrates and emulsifies soiling extremely quickly from metal surfaces.
- It saves costs because of its versatile application properties and removes different types of soiling (metal dust, incrustated oily and greasy soiling and other).
- NOWA clean has an extremely low COD-value (Chemical Oxygen Demand), which allows it to reduce organic pollution and to facilitate waste water treatment.
- NOWA clean is pleasant to use thanks to its nice perfume and low foaming formula.

Area of application

- NOWA clean can be used both to clean production machines as well as floor in the metal processing industry.
- Do not use on aluminum and alkaline sensitive surfaces.
- Check compatibility before usage.
