

NOWA frigo

Ready-to-use cleaner for deep-freeze storage rooms

No de-icing | No stock removal | Up to -29°C

Technical Information

Product profile

- For concentrated application during the operation of deep-freeze storage rooms.
- No de-icing or removing of goods from stock necessary. Thus time- and cost-saving.
- NOWA frigo has de-icing properties. It is powerful for oily or greasy soiling.
- Due to the high flammability of this product it is important to point out the special measures for safety at work.

Area of application

- For correct dosing please see dosing-table.
- Suitable for all alcohol-resistant metal or plastic materials and surfaces in refrigeration rooms as well as for ceramic tiles.
- Also suitable for the application on refrigerated counters. For correct dosing please see dosing-table.

Ingredients, handling, storage and environmental instructions

For the ingredients list, please see the Safety Data Sheet. Product strictly reserved for a professional use. For all information regarding handling, storage conditions and disposal, please see the Safety Data Sheet.
