Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

makes the difference

ACTIV performa

High performing laundry detergent for bleaching and degreasing

■ Enzymatic ■ Strong stain remover ■ EU-Ecolabel certified

Product profile

- ACTIV performa is a specially designed detergent for all textiles for the removal of persistent stains and greases, providing bright white linen.
- The combination of biodegradable surfactants and sequestering agents enables an effective cleaning of all textiles also in high temperatures (from 60°C) by removing all kinds of stains (wine, tea, coffee, lipstick, etc.) contributing to an efficient washing result.
- With its natural enzymatic formula ACTIV performa removes deeply incusted food stains such as egg, fat, blood, etc.
- ACTIV performa is certified with the EU Ecolabel and the formulation contains a high content of renewable ingredients and a plant-based surfactant system.
- Mainly composed of renewable sources, ACTIV performa takes on the responsibility for future generations.

Area of application

- Suitable for all textiles (except wool and silk) and for all types of professional or domestic washing machines.
- ACTIV performa is a concentrated powder.

Product safety, storage and environmental instructions

Safety: For professional use only. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Only give complete emptied packaging to special waste disposal. For maximum effectiveness always use the correct dosage and lowest recommended temperature. This will minimize both energy and water consumption and reduce water pollution.

Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

Application area: developed for professional laundries.
