

# APESIN effect

## Liquid Surface disinfectant cleaner

■ Broad activity ■ Versatile ■ 2-in-1

### Product profile

- APESIN effect is a liquid surface disinfectant cleaner for entire institutional, medical and food-processing areas.
- With a broad activity against bacteria, yeast, fungi and viruses.
- For simultaneous disinfecting and cleaning of washable surfaces and items.
- APESIN effect is free of fragrances.
- The short contact times of APESIN effect result in a higher yield and enable efficient work processes.

### Area of application

- APESIN effect should be applied with wet wiping method (mechanical action).
- Always pay attention to complete wetting of the surface and do not dry surface before completing required contact time. Follow the specified contact times for the respective product concentrations (see page 2).
- Surfaces with food contact need to be rinsed with clear water after use and contact time.
- APESIN effect is suitable for surfaces and items made of e.g., PA and POM.
- Not applicable on metals such as brass, copper or aluminum.

### Ingredients:

Ingredients per 100g: 2,475g DIDECYLDIMONIUM CHLORIDE, <5% Non-ionic surfactants

### Sustainable development and production:

### Product safety, storage and environmental instructions

**Safety:** For professional use only. For further information, see Safety Data Sheet. Use biocides safely. Always read the label and product information before use.

**Storage:** Store at room temperature in the original container. Keep from freezing.

**Environmental:** Only give completely emptied packaging to special waste disposer.

### Anwendung und Dosierung

Dose in relation to application and degree of soil. Follow below instructions.

**Disinfectant:** Suitable for areas with specific hygiene requirements.

**Floor cleaning:** Mop the floor with a clean mop.

**Surface cleaning:** Wipe the surface wet with a clean cloth.
