

## **ENERGY proKliks**

# High performance dishwashing detergent for soft **green-Effective**® and osmosis water

■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

### Sustainable development and production

#### EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water
- management
  Social Fairness

### DIN ISO 14001:

 Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

#### ISO 50001:

 Continuous improvement of energy management: performance, efficiency, security, use and consumption

#### A.I.S.E.-Charter:

 Safe and sustainable manufacturing of cleaning products

#### DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

- Cradle to Cradle™ Bronze certified\*
- Certified with the European Ecolabel (AT/038/005)
- Registered in the positive list of "DIE UMWELTBERATUNG"
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

\*Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute. The product has been Cradle to Cradle Certified™ at the Bronze level. Product packaging meets banned list requirements, but has not been assessed to determine certification level.

#### Ultimate biodegradability

- ENERGY proKliks with all its ingredients is ultimately biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard\*
- \*for more information please visit www.wmprof.com

#### Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 39% of organic carbon processed in ENERGY proKliks originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

#### Ingredient declaration

<5% polycarboxylates, phosphonates Specific ingredients: water, potassium hydroxide, sodium hydroxide, ecofriendly complexing agents based on amino acid, citrates, hybrid polymer

#### Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

#### Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

## **ENERGY proKliks**

# High performance dishwashing detergent for soft green-Effective® and osmosis water

■ Powerful cleaning ■ Soft and osmosis water ■ Excellent stain removal

#### Product profile

- The unique hybrid polymer backbone of ENERGY proKLIKS is of natural origin and not synthetic which gives it its exclusive colour while providing outstanding residue-free cleaning results.
- Thanks to its innovative system of fully biodegradable amino acid based sequestering agents as alternative to phosphate, NTA and EDTA it prevents lime scale deposits while ensuring a boosting effect leading to an unmatched grease and stain removal in soft and osmosis water.
- Its ultra-concentrated formula enhances lowest dosing and economic consumption.
- Majorly composed of renewable resources, ENERGY proKliks takes on the responsibility for future generations.
- KLIKS is a closed system with a clever packaging design providing maximum user safety and hygiene while guaranteeing the complete emptying of the product and a space saving disposal.

#### Application and Dosing

Closed system for maximum user safetv and intuitive handling.

automatic dosing systems highly recommended.

for light to heavy soiling.

soft water

open box as indicated through icons on the box and insert spout correctly in holder.

pay attention to colour coding for safe application.

recycle cardboard box with paper and plastic bag with plastic.

#### Area of application

- ENERGY proKliks is suitable for all types of dishwashing machines, e.g. big ribbon and single-tank machines.
- It is applicable for all alkali-resistant dishes and cutleries, it thoroughly washes plates, glasses, pans and pots. Do not use for dishes and cutleries made of aluminum and silver!
- Use in combination with green care BRILLANT Kliks products.

#### Product safety, storage and environmental instructions

Safety: For professional use only. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: This detergent works well at low temperatures. Select low temperature washing cycles on the dishwasher, wash full loads and do not exceed the recommended dosage. This will minimise both energy and water consumption and reduce water pollution. Only give completely emptied packaging to special waste disposer.
