ENERGY topKliks

High performance dishwashing detergent for medium and hard water types

- Powerful cleaning
- Medium hard to hard water types
- Excellent stain removal

Product profile

- ENERGY topKliks is ideal for use in difficult water conditions.
- Thanks to its innovative system of fully biodegradable amino acid based sequestering agents as alternative to phosphate, NTA and EDTA ENERGY topKLIKS prevents lime scale deposits.
- Thanks to its high alkalinity ENERGY topKLIKS is the ultimate solution to guarantee outstanding grease and stain removal through powerful cleaning.
- Majorly composed of renewable resources, ENERGY topKliks takes on the responsibility for future generations.
- KLIKS is a closed system with a clever packaging design providing maximum user safety and hygiene while guaranteeing the complete emptying of the product and a space saving disposal

Area of application

- ENERGY topKliks is suitable for all types of dishwashing machines, e.g. big ribbon and single-tank machines.
- It is applicable for all alkali-resistant dishes and cutleries, it thoroughly washes plates, glasses, pans and pots. Do not use for dishes and cutleries made of aluminum and silver!
- Use in combination with green care BRILLANT Kliks products.

Product safety, storage and environmental instructions

Safety: For professional use only. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Dose according to the degree of soil, and the water hardness which can be provided by your local water company. Follow the dosing instructions. For maximum effectiveness always use the correct dosage and lowest recommended temperature. This will minimize both energy and waste water consumption and reduce water pollution. Only give completely emptied packaging to special waste disposer.

Application and Dosing

Closed system for maximum user safety and intuitive handling.

automatic dosing systems highly recommended.

for light to heavy soiling.

medium (0,6-1,5 g/L) to hard (1,5-2,5 g/L) water

open box as indicated through icons on the box and insert spout correctly in holder.

pay attention to colour coding for safe application.

recycle cardboard box with paper and plastic bag with plastic.
