

LONGLIFE sport

Emulsion polish for sport floorings

- Slip resistance ■ Highly elastic ■ Easy application

Product profile

- LONGLIFE sport is a specific emulsion polish designed to meet the special needs of modern sport hall floorings.
- The highly elastic protective film of LONGLIFE sport shows no sign of brittleness at any time during its use and even retains its whole flexibility during heavy use.
- LONGLIFE sport is tested and approved in accordance with DIN 18032-2.
- LONGLIFE sport protects floorings against high mechanical strains and early erosions.
- The silky protection film of LONGLIFE sport can be polished and additionally enables a quick and simple spot renovation. This is important when the sport hall is working to full capacity or is used as a multi-purpose-hall.
- Occasional polishing (400 UPM) enhances the look and compacts the applied protection film which extends the durability of the surface.
- LONGLIFE sport is easy and fast in application, shows an excellent flow and steady look after drying.

Application and Dosing

Dose in relation to application. Follow below instructions.

Floor preparation: strip the floor, remove all dirt and old dispersion layers. Leave to dry.

Initial treatment: allow sufficient drying time between the applications.

Polishing: can be polished with single disk machine.

Excellently suitable for sport floors and approved in acc. with DIN18032.

Spray cleaning: spray thinly and evenly on the floor, treat with a single disk machine.

Area of application

- LONGLIFE sport is excellent for the application in all sport floors made of PVC, linoleum, rubber, sealed parquet, etc. Do not use on unsealed wood.
