Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

SANET alkastar

green-Effective® Sanitary Cleaner with Care Effect

■ Powerful degreasing ■ High material compatibility ■ Low cost-in-use

Product profile

- SANET alkastar is an alkaline sanitary maintenance cleaner, which is free of acids and chlorine. This makes the product exceptionally material and environmental friendly. Respecting biological cycles, it cares for people's health and cleaning staff's safety.
- Meanwhile enhancing the work safety and despite its material compatibility, SANET alkastar shows outstanding cleaning performance especially against oily and greasy soiling in acid-sensitive sanitary areas.
- Effortless cleaning procedures and low product consumption increase productivity.
- Majorly composed of renewable resources, SANET alkastar takes on the responsibility for future generations.

Area of application

SANET alkastar is suitable for all water-resistant surfaces, e.g. enamel, chrome, porcelain, ceramic tiles, plastic and painted surfaces as well as marble. Also applicable on plastics (e.g. acrylic glass, polyamide, Corian), on partition walls, wash basins, shower walls, furniture, coverings, armatures, as well as coloured fittings, door handles, handrails and banisters.

Product safety, storage and environmental instructions

Safety: For professional use only. Keep away from children. Do not mix with other products. Test material compatibility before use. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container. Keep from freezing.

Environmental: Only give completely emptied packaging in the recommended waste container. Proper dosing saves costs and minimizes environmental impact.

Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

Maintenance cleaning: Wipe the surface wet or damp with a clean cloth.

Manual floor cleaning: Mop the floor with a clean mop.

Interval cleaning or persistant soil: Wipe the surface wet with a clean cloth and rinse sufficiently.
