

SYSTEM alca

Sustainable development and production

EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

green-Effective® Alkaline liquid booster

■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

Ultimate biodegradability

- SYSTEM alca with all its ingredients is ultimately biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard*

*for more information please visit www.wmprof.com

Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Active water stewardship maintaining an own fresh and waste water treatment

Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

makes the difference

SYSTEM alca

green-Effective® Alkaline liquid booster

■ Pure power ■ Automatic dosing ■ Renewable ingredients

Product profile

- SYSTEM alca is a strong alkaline booster with remarkable degreasing properties.
- Thanks to SYSTEM alca the laundry is easier; and its alkaline components descale the dirt.
- It has to be used through automatic distribution in combination with an ACTIV or SYSTEM detergent based.
- SYSTEM alca is the unique chelating system with renewable ingredients –it contains no phosphate, no NTA and no EDTA.
- It can be used at all temperature even at 20°C.
- SYSTEM alca is part of the Ecolabel certified **ECOMplete SYSTEM** (DE/039/007) in combination with ACTIV liquid and SYSTEM oxybleach.

Area of application

- Suitable for all types laundry except with silk and wool.
- Usable in every kind of industrial and collective washing machines.
- Recommended to be use in addition to Program Matic P1(SYSTEM tensioplus) and in association with Program Matic P3 (SYSTEM aquasoft); depends on the hardness of the water.

Product safety, storage and environmental instructions

Safety: For professional use only. Keep away from children. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Only give complete emptied packaging to special waste disposal. For maximum effectiveness always use the correct dosage and lowest recommended temperature. This will minimize both energy and water consumption and reduce water pollution.
