

SYSTEM oxybleach

Bleaching additive for laundry

- Stain remover ■ Bright whiteness ■ Low temperature

Product profile

- Its formula based on hydrogen peroxide and peracetic acid removes all types of coloured stains and brightens white linen even at low temperature.
- When incorporated in the washing phase, SYSTEM oxybleach avoids the use of chlorine bleach.
- SYSTEM oxybleach is part of the Ecolabel certified **ECOMplete SYSTEM** (DE/039/007) in combination with ACTIV liquid and SYSTEM alca.

Area of application

- For professional machines.
- Applicable during the washing phase by using a pump: 10 min at 40°C minimum.
- For all types of bleaching-resistant laundry.

Application and Dosing

Automatic dosing system only.

Ingredient declaration

For the ingredients list, please see the Safety Data Sheet

Sustainable development and production

Product safety, storage and environmental instructions

Safety: For professional use only. For further information, see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Only give completely emptied packaging to special waste disposer. The classification and declaration is based on the presence of peracetic acid and hydrogen peroxide, which are decomposed to non-classified substances during the washing process.
