

SYSTEM powerKliks

Sustainable development and production

EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

green-Effective® Ultra-concentrated alkaline liquid booster

Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- Kliks Laundry is Cradle to Cradle Certified™ GOLD as a set of four products.
- Certified with the European Ecolabel (AT/039/003)
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

*Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute. Kliks Laundry, as a set of four products, is Cradle to Cradle Certified™ Gold. Product packaging meets banned list requirements, but has not been assessed to determine certification level.

Ultimate biodegradability

- SYSTEM powerKliks with all its ingredients is ultimately biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard*

*for more information please visit www.wmprof.com

Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 25% of organic carbon processed in SYSTEM powerKliks originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

	6 ml	7,5 ml	9 ml

Product profile

- Thanks to its high alkalinity SYSTEM powerKLIKS is the ultimate solution to offer outstanding degreasing properties for the removal of persistent stains.
- With anti-greying effect and water softening due to its special composition of complexing agents providing an excellent performance even at 20°C to reduce energy costs.
- SYSTEM powerKliks is ultra-concentrated thanks to its innovative system of fully biodegradable amino acid based sequestering agents as alternative to phosphate, NTA and EDTA reducing weight and packaging material for an economic use and safe handling.
- Optimized as system for energy and resource saving. It has to be used through automatic distribution in combination with an ACTIV detergent or further Kliks products, such as ACTIV perfectKliks.
- Majorly composed of renewable resources, SYSTEM powerKliks takes on the responsibility for future generations.
- KLIKS is a closed system with a clever packaging design providing maximum user safety and hygiene while guaranteeing the complete emptying of the product and a space saving disposal.

Area of application

- Suitable for all types of laundry except silk and wool.
- Suitable for all types of professional washing machines. Only to be used with automatic dosing equipment.
- Use SYSTEM powerKliks according to the dosage instructions and (depending on the water hardness and degree of soil of the laundry). Water hardness information can be provided by your local water company.

Product safety, storage and environmental instructions

Safety: For professional use only. For further information see Safety Data Sheet.

Storage: Store at room temperature in the original container.

Environmental: Only give complete emptied packaging to special waste disposal. Proper dosage saves costs and minimises environmental impacts. Wash at the lowest possible temperature. Always wash with full load. Pre-sort the laundry (e.g. by colour, degree of soil, type of fibre).
