

TAWIP soap

Soap-based cleaner

■ Clean & care ■ Low foaming ■ Slip resistant

Product profile

- The cost-saving TAWIP soap is a high performing wipe & maintenance care for mechanical and manual use on porous stone floors and tiles as well as wooden floors, reaching very high cleaning result even in low dosage concentration.
- Leaves the floors well cared for and shiny and allows easier maintenance cleaning.
- The eco-friendly TAWIP soap contains renewable raw materials, generating a silky matt film with excellent slip resistance.
- Protects against rapid re-soiling. Prevents any leaching of the flooring and contributes to the preservation of the floor covering. Thanks to its special chemical properties, TAWIP soap is also appropriate for the use on antistatic surfaces.
- Thanks to its low foaming property, TAWIP soap can easily be used in automatic cleaning machines.

Area of application

- TAWIP soap suits ideally for manual and mechanical maintenance cleaning of rough textured or coated natural stone, terrazzo, cement blocks, cotto and stone ware tiles.
- Do not use on finestone waretiles.
- TAWIP soap is excellent for the mechanical cleaning of representative walkways (in airports, train stations, malls, multipurpose halls, supermarkets, shopping arcades and hard ware stores).
- Suitable on all water resistant floors (PVC, linoleum, rubber, with or without pre-treated surface and on oiled and waxed wooden floors).

Ingredient declaration
