#### Ingredient declaration

<5% anionic surfactants (sodium laureth sulphate), perfumes Specific ingredients: water, citric acid, xanthan gum, ecofriendly complexing agent based on amino acid, food colour (E 102, E 133)

### Traditional German quality - driving your durable business development

- More than 30 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

#### Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

## **WC** mint

# green-Effective® Toilet Bowl Cleaner Mint

■ Viscous consistency ■ Easy-to-use ■ Safe application

#### **Product profile**

- WC mint is an acid toilet bowl cleaner, which effectively uses natural acid. Respecting the biological cycles, it cares for people's health and cleaning staff's safety.
- Meanwhile enhancing the work safety, WC mint shows outstanding cleaning performance due to its viscous formulation and effectively removes all common soils from urinals and toilet bowls.
- The special bottle with angled neck assures a fast, direct, easy and safe application.
- WC mint eliminates unpleasant odors and provides a long-lasting scent of fresh mint extracts.
- The bottle of WC mint consists to 80% of recycled PET.
- Majorly composed of renewable resources, WC mint takes on the responsibility for future generations.

#### Area of application

• WC mint is suitable for the cleaning of all toilet bowl, urinal and bidet facilities.

#### Product safety, storage and environmental instructions

**Safety:** For professional use only. Keep away from children. Do not mix with other products. Test material compatibility before use. For further information, see Safety Data Sheet.

**Storage:** Store at room temperature in the original container.

**Environmental:** Only give completely emptied packaging in the recommended waste container. Proper dosing saves costs and minimizes environmental impact. Compared to other products only a small amount is required.
